EMOTIONAL SURFACES

**MANAGING PARTNER**  
Rayan Abi Al Mona

**SENSI Trading L.L.C.** has a philosophy based on values of quality, innovation, experience, and hard work.

Quality is at the core of everything we do at SENSI, from tiles and bathroom fittings to client relations and customer service.

Our priority is focused on two main divisions:

- **Products**

Our materials have a high technical and aesthetic value fit for all our customers' and designers' styles and needs.

- **Services**

We thrive to provide our customers with the best service that is rooted in values of strong work ethics and commitment, before and after sales.

**SENSI** will continue achieving excellence today and in the future through perseverance, innovation in research and development, as well as maintaining a lean organizational structure.

## Our Story

It is our belief that our products should touch the senses of our customers, thus enhancing their comfort, increasing the beauty in their life and bringing them happiness.

**And that was the inspiration behind the name "SENSI" the italian word for senses.**

## In The Beginning

SENSI Trading L.L.C. was established in 2010 in Dubai, UAE to serve the needs of the growing real estate sector in the country. We cater to the Gulf and Middle East Region with the latest quality tiles, stones, sanitaryware, bathroom accessories/ furniture, recomposed quartz, concrete panels, bespoke furniture, and a variety of special materials.

“ Our products are guaranteed to last with our customers for a lifetime ”

# Eco-Friendly

SENSI understands that sustainability is a key consideration when choosing your surfaces and sanitaryware, and with this in mind we partnered with suppliers that share that belief and minimise the impact of the manufacturing processes on our environment.

The tiles, quartz and terrazzo we provide through our suppliers are environmentally friendly from mining to installation, which reduces fuel consumption and ensures that precious resources are not consumed during the manufacturing process. Some of our tiles are even made from recycled material.

Our Sanitaryware and faucets are water efficient and can be equipped with flow regulators to achieve target water flow level of any project.
